**Subject: Helping Us Reduce Distractions at School**

Dear Parents and Carers,

We always aim to create a school environment where children can learn, play, and build friendships positively. Recently, however, Pokémon cards have become a growing distraction.

Children are spending a lot of time trading them, disagreements are becoming more common, and some pupils have been upset when cards go missing or get damaged.

To help keep our school day calm and focused, we are asking that Pokémon cards are no longer brought into school. This will help us avoid unnecessary conflict and ensure that all children can enjoy their time here without worry.

We really appreciate your support in keeping the cards at home and helping us maintain a positive atmosphere for everyone.

**Warm regards,**

Cora Williams  
**Head of School**
