

Apply number bonds within 10

Reasoning and problem solving

Tiny knows that $3 + 5 = 8$

I also know that
 $30 + 5 = 80$, because 30
is 10 times 3 and 80 is 10
times 8

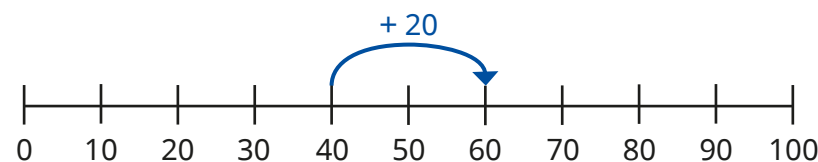

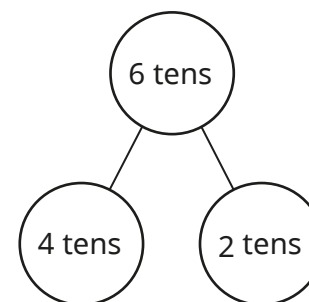

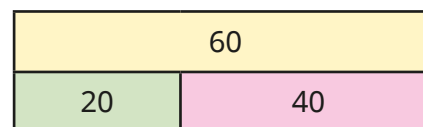

Is Tiny correct?

Explain your answer.

No

Which is the odd one out?

Explain your answer.

The odd one out is the counters.
